B Read what Richard says about a mall in England. What does he like?

'We've got a big mall in Manchester. I like going there with my family. It has lots of good shops. I like the sports shops and the ones that sell video games. There are loads of clothes shops. My father likes the electronics shops. He likes buying things for his computer. I like going up and down in the lift because you can see everything.

The mall has lots of restaurants. There isn't a supermarket, so we can't go food shopping. There are plants and trees everywhere, and there's a big car park underground. It has three floors. Sometimes my father can't find his car when we go home. It's very funny!'

C Talk about a local mall. Use the language below to help.

Unit 1 Lesson 3: Car of the Year!

A Match the numbered car features with the words in the box.

B Read the newspaper article.

1 Does the writer like the Panther 3.0D? How do you know?

CAR OF THE YEAR AT ONE OF BAGHDAD'S MOTOR SHOWS!

I'm here at one of Baghdad's motor shows, and the car everyone is talking about is the Panther 3.0D. The new Panther is Car of the Year, and it's really fantastic. Some people just stand and gaze at its beautiful shape. Some young men want to sit in the driver's seat and dream. However, this car is not just good-looking; it is also a hybrid car. With its combination of an electric motor and petrol engine, this fuel-saving car is good for the planet, and good for your pocket, too! The Panther is self-charging, so you don't need to worry about finding charging points. You just drive like you always do.

It is not only the driver who will be impressed by the Panther 3.0D. Inside, children can sit in the back and try the electric seats and windows while their older brothers and sisters play with the built-in video-game player. These are standard for all models. Extra features include: GPS, the sunroof, tinted windows and an excellent Bluetooth connection.

Switch on the engine and it runs so quietly. All of the features are really fun to try. But there's more! There's loads of space inside. The Panther 3.0D has seats for eight people – two in the front, three in the middle and three in the back. And there's space for all of their bags.

It looks very expensive, but the Panther 3.0D is actually quite cheap. And you don't need a lot of money to run this car. It does 12 kilometres to the litre and has a four-year warranty.

But there's something even more important. This is a really safe car. You don't have to worry in an accident. There are airbags for the driver and passengers and many other safety features. The Panther 3.0D really is the Car of the Year!

2 Is the car in the picture the Panther 3.0D? How do you know?

Lucky customer 50

A 5 **Listen, read and find out.**

1 Can you find three words used to describe Kareem's character?
2 What is the name of the new book Kareem wants to buy?
3 What does 'saving up' mean in paragraph 1?
4 What do you think the collection of poems *Islands of Salt* is about?

Kareem went to Al Mutanabbi Street and hurried towards Al Saqi bookshop. As he got closer, he saw there was a long queue forming outside the door to the shop, and his heart sank. He had been saving up for months and wanted to be the first one to buy the new book by his favourite poet – now he would have to wait in line. As he stood waiting, the hard-working schoolboy pulled the advert for the new book out of his pocket.

Kareem had read all of Al-Nawab's poems at least twice and found them very interesting. The quiet boy spent most of his free time reading or writing his own poems and his parents, friends and teachers all said he was very imaginative. It was Kareem's dream to be a famous poet himself one day.

Lucky customer 50

Finally, the shop door opened and the owner welcomed the queue of customers in. When Kareem got to the door, the shop owner suddenly rang a bell and everyone started clapping and cheering. Kareem was very surprised and didn't know what was happening. After a while, the shop owner saw Kareem's confusion and explained, 'You are the 50th customer through the door today, young man. There is a big prize for customer number 50 … you will get to meet Al-Nawab. Are you any good at writing poems?'

'Yes! I've got notebooks full of poems,' replied Kareem. He felt a surge of happiness as he understood what was happening. His patience was being rewarded. It was a good thing after all that he wasn't first to buy the latest book.

The shop owner shook Kareem's hand and said, 'Wait here. Al-Nawab will arrive in a minute. Here is a free copy of his book. He will sign it for you when he arrives.'

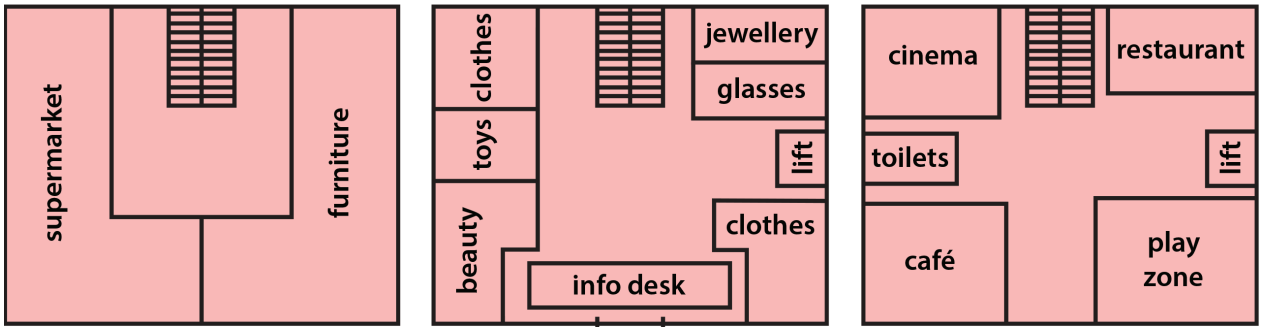

Al-Nawab arrived to the bookshop in a minute. Right on time! Kareem couldn't believe how lucky he was. The poet signed Kareem's book and gave him six more copies for his friends and family. They spent a long time talking, and Al-Nawab promised to read some of Kareem's poems and give him some advice on how to publish his own book of poetry.

P Project 1: More than just shopping!

A Look at the map of a mall and answer the questions.

1 How many shops does the mall have?
2 What is the main purpose of the mall?

Basement Ground floor Floor 1

B Read about two malls. Which mall is better? Tell your partner why.

This mall is called a StudyMall. You don't spend money or buy things here! A StudyMall is all about getting children and families learning in different ways.

The StudyMall is designed for education. It has a library, a museum, an art gallery and classrooms. The classrooms are large, light and comfortable learning environments, and visitors have access to computers, the internet, headsets, 3D printers and a digital library.

At the StudyMall, adults and children can join workshops and training programmes for free. StudyMalls are about more than spending money – they educate and teach you skills for life!

I want to tell you about a new type of mall called an EcoMall. This type of mall is all about looking after the environment.

The building of an EcoMall is made from recyclable materials such as steel, iron, glass and wool. It is surrounded by thousands of trees and plants, and it has a roof garden. There is a small café on the roof where people can relax and enjoy the views. An EcoMall doesn't use any fossil fuels. It uses energy from the wind and the Sun.

The mall has lots of shops and cafés like normal malls. However, the shops sell sustainable food, clothes and beauty products, so you can enjoy shopping without killing the planet!

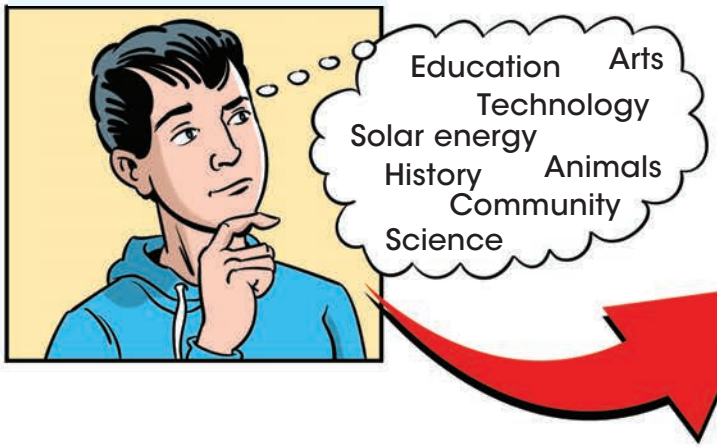

C Work in pairs. Discuss the sentences. Do they describe the StudyMall or the EcoMall?

1 You don't need money in this mall.
2 There are some great paintings in this mall.
3 You can enjoy a drink outside here.

A 10 **Listen to the conversations. Then practise in pairs.**

I went to the cinema yesterday.

Oh, yes? What did you see?

A	B
The Night of the Killer Cockroaches.	*Taxi City.*
What kind of film is that?	
It's a horror film.	It's a factual film.
So, what's it about, anyway?	
These cockroaches. They're huge. They start attacking people.	The taxi driver, who is also the director, films and records his journeys and discussions over two or three days.
That sounds a bit strange.	
Yes, it's not very good.	Yes, but it's good.
Who's the main character?	
The leader of the team to kill the cockroaches is called Mason Dixon.	It's the driver – he's called Ahmed. So, it's him and all the different people he takes in his taxi.
What's the ending like?	
It's not very good. The cockroaches are cornered and end up being zapped.	It's great. It also shows how effective a low-budget film can be.
So, do you think I should see it?	
No, it isn't really very good.	Yes. It's on for another week.

B **Ask and answer with your partner about a film you have seen recently.**

Unit 2 Lesson 6: A TV comedy

A Look at the magazine article. What kind of TV show do you think it is about?

STAR! Magazine

Schoolgirl in new TV comedy

16 year old takes main part

Wonderful! *Very, very funny!* Fantastic!

Lucy Fisher, 16, talks to *STAR! Magazine* about her part in the new TV comedy, *The Badri Family*.

In this comedy, I play Samara, the daughter in a traditional family. I live with my mother, father and younger brother. (1) My brother is very clumsy and is always having silly accidents. (2) In the first episode, he accidentally put salt instead of sugar in my mother's tea and it tasted awful! In every episode he trips over a lot and drops things.

I really enjoyed filming the latest episode because we go away as a family on a holiday. (3) We stay in a fancy hotel with a swimming pool and my brother falls in the pool with all his clothes on! He gets soaked. (4) Later that day, he spills his drink at lunch and then slips in the puddle. (5) Next week, we are filming an episode where my brother puts cleaning fluid on his hair instead of hair gel and his hair turns green. It's going to be so funny!

B AB Read the article. Match sentences (1–5) with photographs (a–e).

When Barnum loses his job as a shipping clerk, after the company goes out of business, he gets a loan from a bank and opens a wax museum, showing wax figures of famous people.

The museum is not successful, so he decides to find some live acts.

Barnum renames his business Barnum's Circus and becomes the ringmaster. He meets Phillip Carlyle, who agrees to join the circus if he gets 10% of the profit. To attract more customers, Barnum starts to show 'freak' performers, which include a bearded lady, a dwarf man and an extremely tall man. However, although these acts bring in bigger audiences and more money, they also create poor media reviews and complaints.

One day, Barnum finds his circus on fire. He rushes into the fire and rescues Carlyle.

After the fire, everyone decides to stay with the circus. Barnum wants to spend more time with his family, so he hands over the circus to Carlyle, who uses his money to rebuild the circus and make it a huge success.

Interesting facts: The musical is based on the true story of PT Barnum, a famous American showman and entertainer, and his creation of a circus. The film made 435 million US dollars!

My opinion: I don't usually like musicals, but I loved this film! The songs are absolutely brilliant, and the story is incredible. I challenge you not to cry!

A 12 **Listen, read and find out.**

1 What was Karam's favourite sport?

2 What challenge did Karam overcome?

Karam was a very talented student. He enjoyed school, and he was really good at sports – especially basketball. In fact, he played basketball for his school team. Karam also liked to help others. He helped his mother in the kitchen, he helped his father in the garden and he helped his two younger brothers with their homework.

One day, Karam's mother asked him to go to the bakery to buy some bread. However, while he was walking, he saw a little girl run into the busy road. At the same time, a large car was speeding quickly along the road towards the girl. Karam saw the car, but the little girl didn't. Karam ran into the road and pushed the girl to safety.

The car screeched to a stop. All the people on the street stopped and looked. The little girl was fine. She ran across the road to her family, who gave her a hug. Sadly, Karam was lying in the road. He had been hit by the speeding car, and his left foot was badly injured.

Karam was taken to hospital. The doctors and nurses worked hard on him. Unfortunately, they couldn't save his foot. Karam suffered a lot during his treatment, and he felt very sad. He thought that this was the end of his sporting life. Would he ever be able to play basketball again?

The champion

But Karam was lucky. He had a loving and supportive family. His parents and all of his family members visited and helped him during his treatment. After a few months, he was able to use crutches, and he returned to school. Everyone was happy to see him back at school, and he had no problems at all academically.

However, Karam still felt sad. Sport had been an important part of his life, and now he couldn't do it. His teachers tried to encourage and support him by explaining all the other activities he could do, such as art, playing chess, joining a debating club and cooking. But none of them were basketball. Karam missed the physical activity, the speed, the teamwork and the competition of his favourite sport.

One day, Karam's PE teacher told him about a wheelchair basketball team in his city.

But Karam didn't have a wheelchair.

'Don't worry!' said the PE teacher. 'I will offer you one!'

So, Karam joined the team. Very quickly, he learnt how to turn, stop and sprint with his wheelchair. It was quick and light, and it felt like part of his body. Once again, he felt the speed, teamwork and competition of his favourite sport. He was soon good enough to become a member of the national team, and he began to participate in many international contests, where his team won several titles.

Lesson 5: The fastest living things

A **Read the text and then suggest two possible titles for it.**

Have you ever watched a falcon diving down from the sky? They are the fastest things in the natural world. They fly high up and then dive down to kill a bird or a small animal. Some falcons can dive at 240 kph!

More than a thousand years ago, the people from the deserts of Arabia, the Bedouin, used to watch falcons catching birds and animals for food. The Bedouin lived mostly on dates, milk and bread because it was difficult to catch animals and birds. Then they learnt how to catch falcons. Soon, the Bedouin were eating meat their falcons caught for them. Their favourite bird was the large, long-legged houbara. They cooked it over a fire and it tasted delicious.

The houbara

A diving falcon

The Bedouin used to hunt on camels. They rode fast as they followed their flying falcons. Today falconry is a sport, not a necessity, and many falconers arrive in the deserts and valleys of Muthanna, Samarra and Dhi Qar in Iraq in air-conditioned 4WDs.

One disadvantage of this sport is that too many rare birds might be killed. If nothing was done about this, there would soon be no birds left. However, the government has set up protected areas for birds. People cannot hunt there. These safe areas for birds are also good habitats for other animals. As a result, wildlife numbers have gone up and the environment is richer.

B **What do the words in the box mean?**

dive	necessity	government	area	environment

Lesson 8: Life on the marshes

A Look at the fact file. Ask and answer questions about the underlined information.

Example: Where can Marsh Arabs be found?

Fact File

Way of life

Marsh Arabs can still be found living a traditional life in the marshlands in the south-east of Iraq. They raise domestic buffalo. Some sheep and cattle are also kept. Crops such as rice, wheat and barley are grown by the Marsh Arabs. Most Marsh Arabs live in arched houses which they build from reeds. Their houses are usually about three metres wide and about six metres long. They are less than three metres high. Houses are built at the waterside or on artificial reed islands. Houses have entrances at both ends. One part of the house is for the family and the other half is for their animals. Guest houses are built separately. Traditional boats (mashhoof and tarrada) are used as transport.

Wildlife

Forty species of birds can be found in the marshlands. The marshes were once home to millions of birds and the stopover for millions of other migratory birds, including flamingos, pelicans and herons as they travelled from Siberia to Africa.

What has changed in recent years?

40% to 60% of the Marsh Arabs are at risk because most of the wetland has dried up. Many species of birds are also at risk. Some are now extinct or near extinction. The draining of the marshes in the 1990s caused a significant change in the ecosystem. However, some of the marshes have recently been restored after flooding the area.

⚠ Active and passive

Where can people find 40 species of birds?

Monkeys are more interesting than sheep.
Small cars are less expensive than big ones.
A wolf is not as big as a bear.
Snakes are not as dangerous as crocodiles.

3 Comparing the present and past with *used to*

Iraq is greener than it used to be.
There is more wildlife than there used to be.

4 Talking about things that may happen in the future

A What will happen if people continue to grow taller? **B** We will need bigger houses.

And talking about things that are *not* very likely to happen

A What would you do if you were bitten by an animal? **B** I would go to a doctor.

5 Expressing and (dis)agreeing with attitudes, feelings and opinions

A I like spiders.
B So do I.
A I don't mind spiders.

1 What did the rich merchant sell?
2 What did he give to his three sons?
3 What did each son buy?

Long ago, there lived a wise and rich merchant in Iraq. He spent his working life buying and selling gold, animal skins, silks and salt. He had a lot of land and he lived in a large, strong house with a beautiful garden.

However, after many years, the merchant became old and tired. He decided to give his riches to his three sons because he wanted to spend more time relaxing in his garden.

The merchant's oldest son was called Majid, his second son was called Ali and his youngest son was called Hamad. The merchant called his sons to him and told them his plan.

'My children, I want to give my riches to you today, while I am alive. My land is easy to cut up, and I will give each of you a piece of land that is the same size.'

'Thank you, Father,' the three sons said.

'But what about the house?' asked Hamad.

The merchant smiled. 'That is a difficult question. I cannot cut up my house! So, I want my house to go to my cleverest son. Then the merchant opened his hand to show three small coins.

'Take one coin each. Take it to the souq and spend it. The son who buys something that can fill this room, will have the house. Go now and return before night.'

Each son took a small coin and went to the souq.

Majid entered the souq. The first stall he saw was full of baskets, mats and straw.

'Straw!' he shouted. 'Straw is cheap, and it fills up space!' He returned to the house with sacks full of straw.

Story time

How to fill a space

Ali entered the souq. The first stall he saw was full of goats, rabbits and birds.

'Feathers!' he shouted. 'Feathers are cheap, and they fill up space!' He returned to the house with sacks of feathers.

Hamad entered the souq. He walked around the souq and he thought and he thought. Then he had an idea.

Majid and Ali waited for Hamad to return to the house. They waited and they waited. The hours went past, and he did not arrive. Then, as the sun disappeared and night started, Hamad arrived.

Majid and Ali laughed when they saw Hamad. He had nothing! 'Hamad will not get the house,' thought Majid and Ali.

The three sons entered the house together and stood in front of their father.

The merchant asked his oldest son to go first. Majid emptied the sacks of straw around the room. When he finished, the room was half full.

'Well done!' said their father. 'Now it is Ali's turn.'

Ali emptied the sacks of feathers around the room. When he finished, the room was half full.

'Well done!' said their father. 'Now it is Hamad's turn.'

Hamad stood in the middle of the room. He had no sacks. Then he took a long, white stick out of his jacket. It was a candle. Hamad placed the candle in the middle of the room and lit it. The light from the candle filled the dark room with light.

'What a clever idea!' said Majid and Ali laughing. 'Our little brother is the cleverest son!'

'Yes,' said the merchant. 'I think we all agree that the house will go to Hamad!'

Then the three brothers joined their father and mother for a delicious evening meal.

Bees in Iraq	Making a bee helper	Solitary bees

Helping our bees

Bees pollinate a third of everything we eat.

Bees can travel over 80,000 kilometres.

Bees travel at 25 km/h.

1. I want to help bees where I live. Here in Iraq, we usually think about honey when we think about bees. We have kept honey bees in Iraq for thousands of years. There are ancient inscriptions on clay tablets with recipes using honey to treat skin problem. However, I want to help solitary bees.

2. Some bees live on their own, like the solitary bee. These bees are small bees that move from flower to flower. They don't produce honey, but they have a very important role, because they are pollinators. Farmers benefit because these bees pollinate crops and increase the harvest. However, solitary bee populations have decreased in the last 20 years because their habitats have been lost.

3. I made a bee helper to give solitary bees a home. First, I got some old bamboo sticks and I cut them into 10 cm lengths. I scraped out the middle to make them hollow. Then, I made a wooden box and filled it with the hollow sticks. Finally, I used some wire to hang it up on a sunny wall. I hope that bees will come and visit my bee hotel!

3

Get some metal wire and some nuts. Thread the nuts onto the wire. Do this several times. When you have enough nuts on the wire, make a circle and tie some string around the wire before hanging it in a tree.

Lesson 1: Listening

Remember! When a person is speaking in English, you don't have to understand every word. Use these tips to help you.

Listening tip 1 – Listen for the loud, slow words.

People often say the important words more loudly and more slowly.

What are the important words here?

Can I have your attention, please? We have a report of a young boy missing in the shopping mall. His name is Jamal. He has curly black hair and brown eyes. He is seven years old and is wearing a red sweater, a white shirt and blue jeans. He also has white shoes and socks.

A 17 **Listen to two speakers.** What are the important words in each case?

Listening tip 2 – Listen for the loud sounds in words.

Long words in English have one loud sound. This is often the only sound you will hear clearly from an English speaker. You must learn to recognize long words from the loud sound.

What are the loud sounds here? attention missing curly sweater

B 18 **Listen to some long words from the course.** Write the words you hear.

Listening tip 3 – Listen for repetition of the words.

Don't worry if you don't hear important information the first time. People often say the important information twice.

Notice how the speaker repeats the information in a different way.

That's a young boy called Jamal with curly black hair and brown eyes, wearing a red sweater, a white shirt and blue jeans.

C 19 **Listen to two announcements.**

Remember the important information in each case.

Unit 4

Reading tip 1 – Look at any pictures/photographs.

Look at the pictures or photographs before you look at the text.
Think: *What is this text about?*
What words will be in the text?

A **Look at the photographs and follow Tip 1.**

Reading tip 2 – Look at the headline or the title.

Look at the headline of the article or the title of a story before you look at the text. Think: *What is this text about?* Then read the text and think: *Did I get it right?*

All the **topic sentences** together usually make a good **summary** of an article.

Find and underline the topic sentences in the article in your Student's Book page 24:

Topic sentences are not so important in newspaper articles. Each paragraph may only have one sentence.

C **What information is in these paragraphs?**

B 26 **Read and listen to the interview between Nawal Ramzi and a reporter from the *Iraqi Morning News*. What is Nawal Ramzi doing these days?**

Reporter Good morning. Today we are talking to the well-known dentist, Dr Nawal Ramzi. Dr Ramzi, first of all, where were you born?

Dr Ramzi I was born in Mosul.

Reporter What were you doing before you became a famous dentist?

Dr Ramzi Well, I was already a dentist, and I was reading a lot at home and keeping in touch with a large number of dentists in different countries around the world.

Reporter I see. So what changed your life?

Dr Ramzi One day, I was treating a tooth for one of my patients. It was badly decayed and needed to be pulled out. Everything was fine, but all of a sudden the gum started bleeding. I tried and tried until I finally succeeded in stopping the bleeding. I resumed my work again. It was a lesson for me to work harder and find newer, smarter methods to treat bad teeth.

Reporter What happened then?

Dr Ramzi I participated in different workshops on using lasers in dentistry. I opened a large new dental clinic using modern equipment to make my work more successful.

Reporter Are you happy with your work now?

Dr Ramzi Oh, yes, very happy, because I am helping people in my city to have healthy teeth. I also offer free treatment to poor families and to the families of Iraqi soldiers.

Reporter Now, show me the new equipment that everybody is talking about …

THE SPORTS MINISTER opened a new sports city in Basra yesterday. The new city cost 1 billion IQD and took three years to build.

Many people were waiting when the minister arrived at 10 a.m. He spoke to youth and community representatives before opening the sports city at 11 a.m.

Boy saves child

A BOY FROM THE UK was a hero yesterday when he saved a child from a dangerous animal.

The child's mother, Esra'a Al-Bayati, 26, told our reporter, 'I was going to the shops with my daughter, Salma. She's just five years old. We were walking across the park, and Salma was playing with a ball. Suddenly, a big black dog ran up to us. It seemed very angry, and it barked at Salma. Then it jumped on her and knocked her down. It was horrible. A boy was playing football nearby. He kicked the ball at the dog. The ball hit the dog hard, and it ran away.'

The boy was John Smith, 13, who is in Iraq for one year with his family. John said afterwards, 'I'm not a hero. I saw the little girl was in trouble, so I kicked the ball at the dog. It was a lucky shot.' John plays in the football team at Baghdad International School.

A **Dalia and Sara both went to the school graduation party featured in Unit 2, Lesson 7. They wrote reviews of the party for their school magazine. Read the reviews and answer the questions.**

Amazing graduation day

Al-Quds Intermediate School hosted the concert of the year last Thursday. The party was really amazing. By 10 a.m., the hall was full and everybody was smiling. The students were wearing their uniforms and everyone was waiting patiently for the party to start. When the curtains went up on stage, the lights went down and a hush spread through the hall. The school arts team opened the show before some talented students did some solo performances. They all performed well and you could tell they had practised a lot. When they had finished, the audience clapped loudly. *Dalia*

School party

Last Thursday's party was supposed to start at 10 a.m., but when I arrived at 9:45 the hall was already full. I had to stand right at the back and I was struggling to see or hear anything. The students around me were chatting loudly while the arts team were performing. I'm not sure if the performance was any good as I couldn't hear much of it, but the rest of the audience clapped at the end so they were enjoying it. I was disappointed I didn't enjoy it as much. Next time, I will try and get there earlier to make sure I get a good seat. *Sara*

2 What were all the students wearing?
3 Why didn't Sara enjoy the party?

Unit 5 Lesson 8: A website for me

A **Before launching a new magazine or website, it's good to do some research to find out what the readers find interesting. Read the following information about the popularity of sports in different countries.**

The most popular sport in the world is football (or soccer as some people know it). Football is the top sport in many countries, including Iraq, the UAE and the UK. In the USA, most people prefer American football while in India cricket is the favourite. In China, the most popular sport is basketball. Which sport is your favourite?

B **Imagine you are creating a new magazine or website for the students in your school. What would you include? Do a survey of your classmates and find out what the most popular features are. Create a tally chart in your Activity Book to show the results.**

Example:

Story time

A powerful lesson for everyone

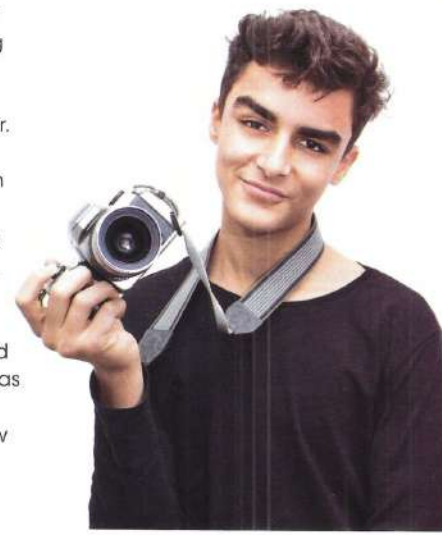

A 30 **Listen, read and find out.**

What was the 'powerful lesson'?

Every year, *Al Sabah* newspaper makes a special offer to two young students from local schools. In the summer holidays, these students can work as reporters on the paper. They can see what reporters really do in their jobs, and they can learn to write reports.

Last summer, Salam Ahmed was the lucky boy. He was 15 years old, and he wanted to be a reporter. On his first day at the paper, he took a new reporter's notebook and his camera. One of the reporters was showing Salam his desk when the editor came in and said, 'A big new restaurant is opening in Baghdad next Tuesday. I need someone to write a good report on the event.'

Story time

A powerful lesson for everyone

'I can do it,' Salam said.

On Tuesday, Salam took his notebook and camera and went into the new restaurant. Salam watched everything, but one special thing attracted his attention. A young boy was taking his old father, who was in a wheelchair, to the restaurant for a treat. The boy bought his father some food. The father was very old and weak and dropped food on his shirt and trousers while he ate. Many of the other customers watched the old man in disgust, but his son looked at him with love and respect.

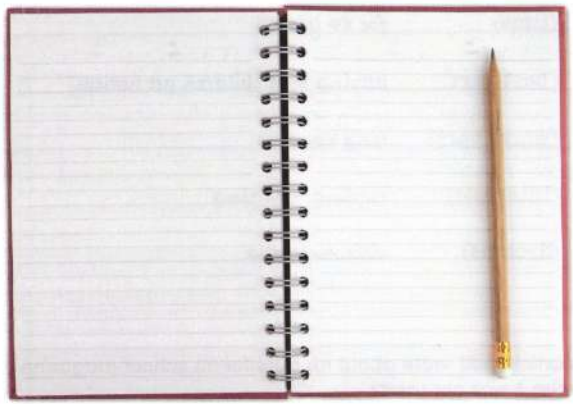

After the old man had finished eating, his son, who was not at all embarrassed, quietly took him to the washroom and patiently wiped the food from his clothes, combed his hair and straightened his spectacles. When they came out, the entire restaurant was watching them in dead silence, not able to grasp how someone could embarrass themselves publicly like that.

The son, very proud and pleased, started walking out through the crowd with his father. As they left, a wise old man called out to the son and asked him, 'Don't you think you have left something behind?'

The son replied, 'No sir, I haven't.'

The old man said, 'Yes, you have! You left a lesson for every son and hope for every father.'

The restaurant went silent. Salam was watching everything and followed the boy and his father. After asking them questions and taking notes, he thanked the boy and kissed the old man on his head. Salam made his very first report about this touching story, and it was praised by everyone.

B **What questions do you think Salam asked the young boy? Can you think of three?**

P Project 3: People who make a difference

1 Discuss what each person does and the difference they make.
2 Choose your top three and explain why.

7 (worst part)	long hours
8 (interests)	reading, knitting

C **Read the article Adil wrote about his aunt for his school magazine. Which question from Exercise B was not used?**

D **Think of someone you know who makes a difference. Interview them and write an article about them for a magazine. Share your article with the class.**

Inspiring Nurse Makes a Difference

By Adil Alsarraf

Do you ever think about the people around you who make a difference? These people keep our roads in good condition so traffic and services can keep moving. They put themselves in danger to stop crime. They create beautiful images for us to enjoy. They clean our streets, and they even give money to charity. My aunt Sana is one of these people, so I interviewed her about how she makes a difference.

My aunt makes a difference by helping people get well after an illness and become healthy again. She is 42 years old, and she has been a nurse for 17 years. After training for three years, she started her career, and today she is working in a health centre in Ramadi. I asked her what her favourite part of the job is, and she told me that it is working with young people and children because she enjoys helping them get better when they have been sick. However, being a nurse can be tough, so when she is not working she reads and knits to relax. Her dream is to travel, and she really wants to visit Australia in the future.

I am really proud of my aunt. Because of her, I want to make a difference when I am older, too. I hope to be a writer and give joy and new knowledge to my readers.

Lesson 1: Jobs and workplaces

A **Talk about the photographs.**

1 Write the names of the numbered workplaces.
2 Write one or two jobs for each workplace.

Describe a job. Tell your partner as much as you can, but don't make it too easy! Think about the prompts below when you ask about your partner's job.

I work outside a lot. I am very fit and healthy. I have to train for three hours every day. People come to watch me.

- Who usually works outside?
- Who has to travel?
- Who works alone?

Unit 6 Lesson 2: Careers advice

⚠ Talking about the future

***be* + *going to* + infinitive; *will* + infinitive**

I'm going to leave school as soon as I'm 16.
(The speaker has made a plan.)

You will get your pocket money on Friday.
(The speaker is talking about something in the future that is certain.)

Layla and Dania are twins aged fifteen and a half. They go to the same secondary school. Today they are getting advice from their headteacher.

A 31 **Listen to Layla and Dania's conversations with the headteacher. What are the main differences between Layla and Dania?**

Headteacher	Good morning, Layla. Please sit down. How can I help you?
Layla	I don't know.
Headteacher	Well, do you have any career plans?
Layla	Career plans? No, I haven't got any plans.
Headteacher	None at all?
Layla	No ... Actually, I do have a plan. I'm going to leave school as soon as I'm 16.
Headteacher	I see ...

Headteacher	Hello, Dania.
Dania	Good morning, Headteacher.
Headteacher	Well now, Dania, do you have any career plans?
Dania	Oh, yes, Headteacher. I'm going to be a vet.
Headteacher	A vet? That's a tough course, and it takes a long time at university.
Dania	Yes, I know. I've found out all about it and I'm going to do it.
Headteacher	Excellent! Now, ...

B **Work in pairs. Ask and answer questions about your future career plans. Use the model conversation below to help you.**

Student 1	Do you have any career plans?
Student 2	Actually, I do have a plan. I'm going to go to university. I want to be a doctor.
Student 1	That's a tough course. And it will be a lot of work.
Student 2	It'll be worth it.

Unit 6 Lesson 3: What should I do?

A **Read the text and answer the questions.**

1 What advice would you give Mona?
2 Which reply below is the most sensible advice? Why?
3 Which reply is the worst advice for Mona? Why?

Mona is 18. She has been worrying about what she is going to do after her exams next year. Some of her friends are planning to go to college and study further. Others are leaving school and getting jobs in shops and offices. Mona is confused and cannot decide what is best for her, so she starts a blog and invites anyone and everyone to give her some ideas and advice.

Hi everyone. I'm Mona. Please help me decide what to do when school finishes next year. Shall I get a job or shall I continue studying? I really don't know what job I want to do. I enjoy Science, Maths and Art and I am getting good grades, but I really don't like being away from home. Thanks! Mona

Hi Mona. I think you should give up school and work in a shop. You could live at home and you would be using your Maths every day. You would have money to spend from your job, too! ☺ Fatima

Hi Mona – you should really go to college. Until you decide what job you want, you need to stay in education. Ask your teachers for advice and do some research about different jobs and how you become qualified to do them. If you find a job you really enjoy, you will be much happier! Fouza

Mona, make sure you apply for university now. You are good at some very important subjects and you must study Medicine. It will take a long time to become a doctor, but you will earn good money and have a very important job. Give up Art – it is useless and will not help you in life. Leena

Dear Mona, I think you need to go to a language school in another country like me. It's great fun and you meet lots of new people. Dalia

B **Write your own reply to Mona's blog.**

Unit 6 Lesson 4: The school of the future

A AB **Hassan has entered a competition to design a school of the future. Read his entry and match the headings with the paragraphs.**

a A 'super school' b Global education c Virtual learning

1 Schools in the future will be very different to schools now. There will be much more technology and students will only need to come in to the actual school buildings once or twice a week. Most of the teaching and learning will take place over computers which are connected to the internet in students' own homes. Teachers will deliver lessons using the internet at times to suit each student. Students will also be able to use the internet to communicate and discuss work with other students.

2 I think there will be fewer small schools in the future because students will learn mostly at home. There will be one 'super school' in each town or city that students of all ages come to and use the fantastic facilities. There will be sports facilities, a science park, a museum and a mosque. Young people who are interested in Science or Music will be able to study at the special buildings designed for those subjects.

3 This new way of learning will make it possible for students to connect with other students and teachers all over the world. If someone has a special interest in something, they can search a global database to find a teacher who can teach that student all about their chosen specialism. The schools of the future will teach many subjects that are important for Iraq's future because students will be able to learn from experts all around the world.

⚠ Giving more information about people and things

Relative pronouns *who, that/which*

To explain which person or thing you are talking about, you can add information after **who**, **which** or **that**. Use **who** for people and **which** or **that** for things.

Example:

The schools of the future will teach many subjects **that** are important for the future ...

Find more examples in the text.

B **Read the text again. Find three sentences with the relative pronouns *who*, *that* and *which*.**

Unit 6

Lesson 7: A famous career

A AB **Read the text quickly. Match the underlined words from the text with their meaning.**

Ibn al-Haitham

Diagram of the human eye

A famous career

Abu Ali al-Hasan Ibn al-Haitham was born in 965 in Basra, Iraq. He went to school in Basra and Baghdad, and later he travelled to Egypt and Spain. In Europe, he was called 'The Physicist'. He is also sometimes called 'al-Basri' after his birthplace, Basra in Iraq.

We don't know much about Ibn al-Haitham's early career. We do know that when he was in Egypt, the Caliph needed him to regulate the flooding of the River Nile. He proposed a hydraulic system, but the task was impractical at the time.

People called Ibn al-Haitham the 'Father of optics'. His most famous work is *Kitaab al Manazir* (*Book of Optics*), which is in seven volumes. This great work was translated into Latin and many other languages. He did many experiments on the movement of light, colours and reflections. He also gave a scientific explanation of the parts of the eye and the process of vision. In 2015, the UNESCO celebrated Ibn al-Haitham's achievements in Optics, Mathematics and Astronomy.

He was one of the most eminent physicists who ever lived. All the Medieval and Western scientists of optics based their work on Ibn al-Haitham's theories on light and optics. He wrote more than 200 works and also contributed to the fields of Mathematics, Medicine and Physics. Most of his works are now lost, but more than 50 of them have survived.

This successful and famous mathematician died in 1040, possibly in Cairo.

1 How is Dalia different from her classmates?

2 What job did Dalia get after school?

Once, there was a girl called Dalia, who came from a simple family. Her parents had died, so she lived with her old grandparents. Dalia was an only child, and she knew that when she finished school, she would have to get a good job so she could help her family.

Dalia enjoyed school and she worked hard in her classes. In particular, she liked studying Maths. Dalia had two classmates, who were called Huda and Mariam. They both came from rich families, and they did not enjoy going to school. In fact, they were never happy about anything. They complained about getting up early in the morning, they hated wearing a school uniform and they moaned about going to school. All they wanted to do was to play games and chat on their phones.

One day, Huda asked Dalia, 'Why do you study so hard? You are not enjoying life!' Dalia replied, 'I enjoy learning new things. Many children in the world can't go to school. We are very lucky to have our education.' But Huda and Mariam just laughed at Dalia's response.

Months passed. Soon, it was time for Dalia to take her final exams, which she passed. Now, it was time to leave school and start to work so she could help her grandparents, who were too old to work. Dalia soon got a job working for a farmer.

Story time

Hard work pays

Dalia worked hard on the farm. She became acquainted with the latest reports on farm management, which helped her make decisions about buying new, disease-resistant seeds, modernizing the farm's systems and marketing the farm's products to customers at the local market.

Dalia enjoyed seeing the farm thrive under her care, and two years later, the farm was turning a profit. The farmer was happy with the changes to the farm, and he started paying Dalia a good salary. Dalia used her money to support and care for her grandparents, but she also had an idea for her own business, which would give management advice to other farms. She began to save her money and make a plan for her future.

A few years later, Huda and Mariam, who were still bored and lazy, decided to visit Dalia's business. They were very surprised to see that Dalia was now a powerful businesswoman who was running a successful company. 'How did you do this?' asked Huda, as she gazed around the company office.

'Well,' replied Dalia. 'Nothing ever comes to you, that is worth having, except as a result of hard work. You should try it one day.'

B 36 **Now listen and check your ideas.**

C **What other names of countries do you know? Try to think of one for each letter of the alphabet.**

Unit 7 Lesson 2: Different countries, different customs

A AB **Find names of the following in the texts very quickly.**

3 countries	1 city
2 days	5 forms of transport

Different ways of getting around

- The Netherlands is very flat, so people there often ride bicycles.
- People who live in Africa usually travel by bus.
- North Americans hardly ever walk. They nearly always use cars.
- Because London is an extremely crowded city, most people who work there travel by bus or underground every day.
- People who live in cities in India often travel by rickshaw.

Business hours

British schools and government offices are usually closed on Saturdays and Sundays. Shops used to close on Sundays, but now most of them are open. Banks and post offices are open on Saturday mornings. People who work in Britain often start work at nine in the morning and finish at half past five in the afternoon. Business hours in European countries that have hotter climates than Britain are different. Shops and offices close after lunch and open again at four or five in the afternoon.

⚠ Time adverbs

1 Some time adverbs give a definite time:
every day, in the morning

2 Some time adverbs give an indefinite time:
often, usually

Find examples of both in the texts. Where do they go in a sentence?

Unit 7 Lesson 3: Travel adventures

A How are the people in the three photographs travelling? Why do people choose to travel in these ways?

B AB Read about three travel programmes and answer the questions.

1 Match photographs 1–3 with each travel programme.
2 What natural features are mentioned in the text?

TV this week

A new series of travel programmes: Wednesdays at 7:30 See the first of 12 travel programmes on Wednesday this week. Each week, a different adventurer travels to some of the greatest natural features on Earth. The most famous rivers, mountains, deserts and volcanoes in the world are visited in this series and the photography is stunning.

Week 1: John Wilson, from the United Kingdom, goes on a journey through Africa down the Nile, the longest river in the world. He travels by boat for most of his journey. It begins at Lake Victoria and follows the White Nile to Khartoum. It continues slowly down to Lake Nasser in Egypt, past the cities of Aswan, Asyut and Cairo. John has many adventures before he reaches the end of his journey at the Mediterranean Sea.

Week 2: Alan Bridges, from Australia, aims to do the 1,000-kilometre journey through the Himalayas from India to China. He does the first 250 kilometres on horseback, riding carefully through the foothills of the mountains to Mount Everest. Then he climbs higher on foot for another 100 kilometres. Although this is very tiring, Alan says it is the best way to enjoy the fantastic scenery. Although he soon becomes exhausted and is unable to complete the whole distance, this programme still makes wonderful viewing.

Week 3: Fareed Lafta, from Iraq, travels by hot-air balloon over the world's largest desert, the Sahara. Lafta's goal is to fly right across the desert from the Atlantic Ocean to the Red Sea. The journey ends unhappily with a helicopter rescue in Niger, but there are fantastic views of the Sahara from the balloon before the adventure comes to its unexpected end.

Unit 7 Lesson 4: How? Where? When?

⚠ Adverbs and adverbials

These give information about a verb. They tell us how, where and when something happens.
Example: *We got here very* **quickly.** (how)

Adverbs are single words (*quickly*).
Adverbials are phrases: *We left* **on Tuesday.** (when)

A AB **Find eight adverbs or adverbials in the text in Lesson 3 in your Student's Book.**

⚠ Word order

Time/Frequency:	Put indefinite time and frequency adverbs before the verb: *I* **sometimes** *go swimming.* Put definite time adverbs at the beginning or end of a sentence or clause: **After school,** *I'm going to have a swim.* *I'm going to have a swim* **after school.**
Manner:	Put adverbs of manner after the verb or the object: *They walked* **slowly.** *They crossed the desert* **on foot.**
Place:	Put adverbs of place after the verb or object: *I put the books* **on the shelf.** *She went* **to London.**

If you have three adverbials, the usual order is Manner, Place, Time:
My friend sang **very well** (M) **at the concert** (P) **last night** (T).

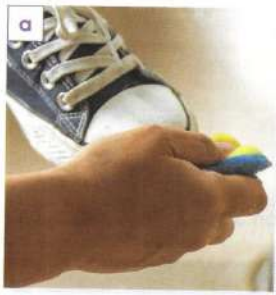

B **Use words from each speech bubble to say sentences. Check your partner's sentences.**

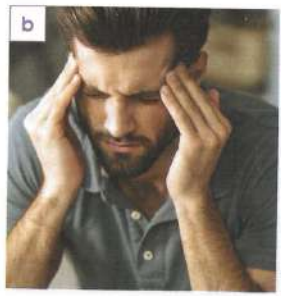

Example:
I played happily in our house last night.

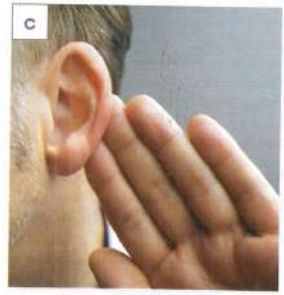

Unit 7 Lesson 5: I'm sorry ...

A 37 **Listen and number the photographs in the order you hear the conversations.**

C **Swap roles and repeat.**

Unit 7 Lesson 6: How many are made each day?

A **Read and match the sentences 1–6 with the headlines a–c.**

Unit 7 Lesson 7: The Asian Games

3 Whose idea was it to hold the Games?
4 Where were the first Games held?
5 Where and when were the last Games held?
6 Has Iraq won any medals in the Games?

B 38 **Listen and read the text and check your ideas. Write the answers.**

The Asian Games

The Asian Games are held every four years. Young people from all over Asia compete in more than 30 kinds of sport. It is an exciting festival. Strength and skill are tested and friendships are built between people from different countries. The Games are also an opportunity for cultural exchange because the programme includes musical performances and exhibitions of architecture and the arts.

History of the Games

The Asian Games were started after the end of the Second World War. The idea was to build international friendship through sport. This idea came from India, so the first Games were held in the Indian capital, New Delhi, in 1951. In that year, 489 athletes from 11 countries took part in the Games. Since then, the number has grown, and now more than 40 countries compete in the Games.

The OCA

The Asian Games are organized by the OCA. These letters stand for the Olympic Council of Asia. Forty-five countries and regions are members of the OCA, and most of them have won medals at the Games.

Where they've been held

Most recently, the Games have been held in Doha, Qatar (2006), Guangzhou, China (2010), Incheon, South Korea (2014) and Jakarta and Palembang, Indonesia (2018).

Iraq's record in the Games

An Iraqi team has attended the Asian Games eight times since 1974. Up to 2018, Iraq has won seven gold medals, 17 silver medals and 23 bronze medals, which is unusually good for a country in a difficult situation. An extraordinary Iraqi competitor was Ali Adnan Amir, who at just ten years old competed in a Men's 200 m individual medley heat at the Asian Games in Doha, Qatar on 6th December 2006. More recently, in 2018, Iraq has shone in weightlifting, with Safaa Rashed winning gold in the Men's 85 kg event and Salwan Jassim taking silver in the Men's 105 kg event.

Unit 7 Lesson 8: Two African countries

A What do you know about the countries below?

B Read the texts and do the Activity Book exercises.

LIBYA

Area	1,759,541 sq. km.
Population	7,043,769
Currency	Libyan dinar
Language	Arabic

Libya is a large country in North Africa with a long coastline on the Mediterranean Sea. Most of the population live in and around the capital, Tripoli, and the second city, Benghazi. The rest of the country is mostly desert and mountain. It can be quite cold in the mountain areas in winter, but, in general, the climate is hot and dry. In the spring and autumn, the *ghibli*, a hot, dry wind that carries sand, blows. Then the temperature can rise very fast. The highest temperature in the world, 58 degrees centigrade, was recorded in Libya in 1972.

In the narrow, fertile northern area, agriculture is important and a lot of food is produced. Many people farm sheep, goats and cattle. However, Libya's main product is oil. It also has natural gas. The country has some magnificent ancient places to visit such as Leptis Magna, an important city 2,600 years ago.

SUDAN

Sudan is the third largest country in Africa. Most of the north is desert, but there are flat grasslands in the centre and forests and

Area	1,849,233 sq. km.
Population	45,840,054
Currency	Sudanese pound
Language	Arabic

high mountains in the south and west. Two rivers, the Blue Nile and White Nile, join at Khartoum, the capital. These are the country's main source of water.

The main crops and exports are cotton and sugar. Sudan has one of the world's largest sugar refineries. Sudan is the world's main producer of gum arabic. Animal farming is also important.

Unit 7 Round up

In this unit, you have practised:

1 **Adverbs of time to say when something happens**

Examples of definite time adverbs: yesterday, every day, in the morning
Examples of indefinite time adverbs: often, usually

2 **Adverbs of manner to say how something happens**

They can be single words: slowly, well
They can be phrases: by car, on foot, in a friendly way
Single adverbs of manner often end in *ly*.

3 **Adverbs of place to say where something happens**

They can be single words: here, there
They can be phrases with a preposition: in the house, on the table

4 **Word order for adverbials**

Indefinite **time** adverbs go before the verb: I sometimes go swimming.

Definite time adverbs can go at the beginning or end of a sentence or clause.
After school, I'm going to have a swim. I'm going to have a swim after school.

Adverbs of **manner** go after the verb or the object:
They walked slowly. They crossed the desert on foot.

If you have two adverbs of manner, you can choose the order in which to put them:
They crossed the desert slowly on foot. They crossed the desert on foot slowly.

Adverbs of **place** go after the verb or object:
I put the books on the shelf. She went to London.

With three adverbs, the usual order is Manner, Place, Time:
My friend sang very well (M) at the concert (P) last night (T).

5 **Present and past passive**

Cotton and sugar are grown in Sudan. (by farmers)
The highest temperature ever was recorded in Libya in 1972. (by? We don't know.)

6 **Past simple and present perfect tenses**

I saw him an hour ago. I lived in that house when I was little.
I have been to England. I have been in this school for three years.
I have lived in this house since I was three.

7 **And you have ...**

- talked about different ways of getting around.
- asked and answered questions about using English.
- noted details in a recorded narrative and used them to write a summary.
- read factual texts about other countries.
- written about souvenirs and customs.
- found out about a country and written two paragraphs.

Together for a better school

A 39 **Listen, read and find out.**

1 Why did Ammar call his friends?

2 What was the students' reward?

During the summer vacation, Ammar was passing his school. He looked through the gate, and he was shocked by what he saw. The school grounds were a mess! The grass in the garden had grown really tall, the thorn trees had grown too big and there were weeds, rocks and rubbish everywhere.

Ammar decided that something needed to be done about the mess. The next morning, he took a large bag to the school grounds. All morning, he moved rocks and filled the bag with rubbish. When it was time to go home, he looked around. The grounds were still a mess.

'This job is too big for one person,' sighed Ammar. 'I need some help.' He made a phone call to his friend.

The next day, Ammar met Fahad in the school grounds. Fahad felt sad when he saw the untidy grounds. Together, they moved rocks and filled a bag with rubbish. When it was time to go home, they looked around. The grounds were still a big mess.

'This job is too big for two people,' sighed Fahad. 'We need more help.'

Both boys got on their phones and made some calls.

The next day, Ammar and Fahad met three of their classmates in the school grounds. Everyone felt sad when they saw the untidy state of the grounds.

'The grounds are a mess,' explained Ammar. 'We need to clean

up before the start of next term. But it is a big job and we need help.'

'My older brother has a lawn mower,' said Fahad. 'He could cut the grass.'

'My brother works for a gardener,' said Ayaa. 'He can get us some new plants.'

'My cousin works on a farm,' said Tahar. 'He can lend us some tools.'

'And my aunt knows a lot about flowers. She can tell us which weeds are poisonous and how to make beautiful flower beds,' said Raia.

Everyone got on their phones and made some calls.

Ammar and his classmates arrived at the school grounds at 7 o'clock the next morning. They all had a rubbish bag and gloves. But nobody else arrived. Everyone felt sad. Would anyone come to help them?

A few minutes later, a truck appeared. Fahad's brother got out and waved. He opened the back of the truck and carried a large lawn mower into the grounds. Next, Ayaa's brother arrived with bags of seedlings. Tahar's cousin arrived with some gloves and tools, and then Raia's aunt came and started explaining which flowers they could keep and which they should remove. Other students from the school arrived, curious about what was happening. They joined in with the tidying, and soon the grounds were busy with activity.

At 5 o'clock, everyone sat down exhausted. Ammar looked around. The grounds were beautiful! The grass was short, the trees were tidy and there were neat flower beds. A vegetable garden had been created for pumpkins and carrots, as well as a small pond made from rocks. Everyone went home feeling happy.

When the term started, the teachers and parents were delighted with the state of the school grounds. They were so impressed with the children's hard work and dedication to the environment that they gave them certificates and made them Environment Ambassadors for the school.

Crocodile: No, you cannot have the fire stick! I am the king of the fire. The fire stick belongs to me, and I will not share it!

4

Narrator: This is a folk tale from Australia. It explains where fire came from. Once upon a time, people did not have fire. Only Crocodile had a fire stick.

POLICE FIND GIRL AFTER THREE HOURS

Report by Ibrahim Ali

Reem Kamal went missing during a family shopping trip to the shopping mall yesterday afternoon. She was shopping with her mother and father and her two sisters.

It all started at 4:15 p.m. 'One minute she was there and the next minute she was gone,' said her mother, Huda. 'We looked everywhere for her.'

Huda told the security guards. They put out a message, but nobody found her. 'I wasn't worried at first,' said Salim, one of the guards. 'Children go missing all the time, but they always turn up after a few minutes.'

The guards called the police. 'We searched the mall for three hours,' said Police Inspector Raad, 'but we didn't find her.'

Then Policewoman Amna Ibrahim heard a noise. 'It was coming from a large cleaning cupboard,' she said. 'I tried to open the cupboard, but it was locked.' She called Salim and he unlocked the door. Reem was inside.

'I went through the door because I thought it was the toilet,' Reem told our reporter. 'The door closed behind me and I couldn't open it. I shouted, but nobody could hear me.'

Reem Kamal was home with her family last night. 'I will always tell my mother where I am going in future,' she said.

Lesson 4: Writing

Writing tip 5 – Editing your work

After you do a piece of writing, you should always edit it for mistakes.

More than thousand[1] years ago, the people from the deserts of Arabia, the Bedouin, used to watch falcons catching for food birds and animals[2]. The Bedouin lived mostly on dates, milk and bread because it was difficult to catch animals and birds. Then they have learnt[3] how to catch falcons. Soon, the Bedouin were eating meat there[4] falcons for them caught[5]. Their favourite bird was the large, long-legged houbara. They cooked it over a fire and it tasted delicious.

Did you ever watch[6] a falcon diving down from sky[7]? They are the fast[8] things in the natural world. They fly high up and then dive down to kill a bird or a small animal. Some falcons can dive at 240 kph!

One disadvantage of this sport is that too much[9] rare birds might be killed. If nothing was done about this, there would no birds soon be left[10]. However, the goverment[11] has set up protected areas for birds. People cannot hunt there. These safe areas for birds are also good habetats[12] for other animals. As a result, wildlife numbers went up[13]. The enviroment[14] is more richer[15].

The bedouin[16] used to hunt on camels. They rode fast as they followed their flying falcons. Today falconry is a sport, not a necessity, and falconers arrive many[17] in the deserts and valleys of Muthanna, Samarra and Dhi Qar in Iraq in air-conditioned 4WDs.

Dania I bought a LoudHouse speaker and I'm really pleased with it. It came with a free USB cable, and the battery was fully charged after just three hours. It was easy to connect it to my phone. Although it's light, the sound is really good. It has a great battery life, which lasts for 20 hours. I got the pink one, and it's really pretty. Overall, I highly recommend this speaker.

Story time Lucky customer 50

A Read the extract and answer the questions.

New release from bestselling poet Mudhafar Al-Nawab. Come to Al Saqi Bookshop on 23rd November and get your copy of Al-Nawab's new collection of poems Islands of Salt. PLUS an extra special prize for the fiftieth customer of the day!

Kareem went to Al Mutanabbi Street and hurried towards Al Saqi bookshop. As he got close, he saw there was a long queue forming outside the door to the shop, and his heart sank. He had been saving up for months and wanted to be the first one to buy the new book by his favourite poet – now he would have to wait in line. As he stood waiting, the hard-working schoolboy pulled the advert for the new book out of his pocket.

Kareem had read all of Al-Nawab's poems at least twice and found them very interesting. The quiet boy spent most of his free time reading or writing his own poems and his parents, friends and teachers all said he was very imaginative. It was Kareem's dream to be a famous poet himself one day.

Finally, the shop door opened and the owner welcomed the queue of customers in. When Kareem got to the door, the shop owner suddenly rang a bell and everyone started clapping and cheering. Kareem was very surprised and didn't know what was happening. After a while, the shop owner saw Kareem's confusion and explained, 'You are the fiftieth customer through the door today, young man. There is a big prize for customer number 50 ... you will get to meet Al-Nawab. Are you any good at writing poems?'

'Yes! I've got notebooks full of poems,' replied Kareem. He felt a surge of happiness as he understood what was happening. His patience was being rewarded. It was a good thing after all that he wasn't first to buy the latest book. The shop owner shook Kareem's hand and said, 'Wait here. Al-Nawab will arrive in a minute. Here is a free copy of his book. He will sign it for you when he arrives.'

Al-Nawab arrived to the bookshop in a minute. Right on time! Kareem couldn't believe how lucky he was. The poet signed

Kareem's book and gave him six more copies for his friends and family. They spent a long time talking, and Al-Nawab promised to read some of Kareem's poems and give him some advice on how to publish his own book of poetry.

Story time The champion

12

A Listen, read and find out.

Karam was a very talented student. He enjoyed school, and he was really good at sports – especially basketball. In fact, he played basketball for his school team. Karam also liked to help others. He helped his mother in the kitchen, he helped his father in the garden and he helped his two younger brothers with their homework.

One day, Karam's mother asked him to go to the bakery to buy some bread. However, while he was walking, he saw a little girl run into the busy road. At the same time, a large car was speeding quickly along the road towards the girl. Karam saw the car, but the little girl didn't. Karam ran into the road and pushed the girl to safety.

The car screeched to a stop. All the people on the street stopped and looked. The little girl was fine. She ran across the road to her family, who gave her a hug. Sadly, Karam was lying in the road. He had been hit by the speeding car, and his left foot was badly injured.

Karam was taken to hospital. The doctors and nurses worked hard on him. Unfortunately, they couldn't save his foot. Karam suffered a lot during his treatment, and he felt very sad. He thought that this was the end of his sporting life. Would he ever be able to play basketball again?

But Karam was lucky. He had a loving and supportive family. His parents and all of his family members visited and helped him during his treatment. After a few months, he was able to use crutches, and he returned to school. Everyone was happy to see him back at school, and he had no problems at all academically.

However, Karam still felt sad. Sport had been an important part of his life, and now he couldn't do it. His teachers tried to encourage and support him by explaining all the other activities he could do, such as art, playing chess, joining a debating club and cooking. But none of them were basketball. Karam missed the physical activity, the speed, the teamwork and the competition of his favourite sport.

One day, Karam's PE teacher told him about a wheelchair basketball team in his city. But Karam didn't have a wheelchair.

'Don't worry!' said the PE teacher. 'I will offer you one!'

So, Karam joined the team. Very quickly, he learnt how to turn, stop and sprint with his wheelchair. It was quick and light, and it felt like part of his body. Once again, he felt the speed, teamwork and competition of his favourite sport. He was soon good enough to become a member of the national team, and he began to participate in many international contests, where his team won several titles.

Unit 3 Our world

Lesson 2: Our growing world

13

B Listen and check your ideas.

1

Voice 2 People are growing taller. People are taller than they used to be because of better food. Scientists say that we are growing two centimetres every ten years.

2

Voice 1 People are living longer. A new baby in Iraq can expect to live for 70 years or more. Thanks to better health services, life expectancy is rising by one year every five years.

3

Voice 2 The population is increasing. The number of people in Iraq is over 40 million and it is going up at a rate of one million per year. This is due to an increase in the birth rate and a decrease in the death rate.

Lesson 3: I hate spiders

14

B Look at the picture and guess the answers to these questions about Kareem and Rami. Then listen and check your ideas.

Rami Hi, Kareem!
Kareem Rami!
Rami What's the matter?
Kareem Look! There's a spider on my book!
Rami So? What about it?
Kareem I can't get my book!
Rami Why not?
Kareem I hate spiders!
Rami Really? I don't mind them.
Kareem You must be joking!
Rami No, I'm not joking. Most spiders are harmless.
Kareem I'm not afraid of them. I just don't like them!
Rami If there were no spiders, you wouldn't be happy.
Kareem Oh yes, I would!
Rami No, you wouldn't. They eat mosquitoes, you know – and flies.
Kareem Mm. I suppose they are useful.

Rami They're very useful. If we didn't have any spiders, we'd have more mosquitoes.
Kareem All right, all right! But there aren't any mosquitoes in here. So we don't need any spiders!
Rami All right. I'll put it outside.
Kareem Thanks, Rami.

Lesson 7: Some of Iraq's animals

15

A Listen to three descriptions. Match them with the photographs.

Girl 1 They're small animals. They can only be seen at night. They sleep in the daytime.
Girl 2 What do they look like?
Girl 1 Well, when they're flying, they look like birds. But, really, they're quite different. For example, they have big ears. Some of them look like mice.
Girl 2 Mice?
Girl 1 Yes. Mice that can fly! I don't like them very much.

2

Boy 1 They're long and thin animals. They can be found in deserts.
Boy 2 What else do you know about them?
Boy 1 They have long fangs with poison in. You can be killed if you are bitten.
Boy 2 They sound scary! I hope I never get bitten by one!

3

Girl 1 They're quite big animals with beautiful grey and white fur.
Girl 2 Where can they be found?
Girl 1 They can be found in many places in the Middle East, Asia, Europe and America. Some people are scared of them but there aren't many of them and they do not like to live near humans.
Girl 2 I think they're beautiful.
Girl 1 Me too.

Story time How to fill a space

16

A Listen, read and find out.

Long ago, there lived a wise and rich merchant in Iraq. He spent his working life buying and selling gold, animal skins, silks and salt. He had a lot of land and he lived in a large, strong house with a beautiful garden. However, after many years, the merchant became old and tired. He decided to give his riches to his three sons because he wanted to spend more time relaxing in his garden.

The merchant's oldest son was called Majid, his second son was called Ali and his youngest son was called Hamad. The merchant called his sons to him and told them his plan.

'My children, I want to give my riches to you today, while I am alive. My land is easy to cut up, and I will give each of you a piece of land that is the same size.'

'Thank you, Father,' the three sons said.

'But what about the house?' asked Hamad.

The merchant smiled. 'That is a difficult question. I cannot cut up my house! So, I want my house to go to my cleverest son.

Then the merchant opened his hand to show three small coins.

'Take one coin each. Take it to the souq and spend it. The son who buys something that can fill this room, will have the house. Go now and return before night.'

Each son took a small coin and went to the souq.

Majid entered the souq. The first stall he saw was full of baskets, mats and straw.

'Straw!' he shouted. 'Straw is cheap, and it fills up space!' He returned to the house with sacks full of straw.

Ali entered the souq. The first stall he saw was full of goats, rabbits and birds.

'Feathers!' he shouted. 'Feathers are cheap, and they fill up space!' He returned to the house with sacks of feathers.

Hamad entered the souq. He walked around the souq and he thought and he thought. Then he had an idea.

Majid and Ali waited for Hamad to return to the house. They waited and they waited. The hours went past, and he did not arrive. Then, as the sun disappeared and night started, Hamad arrived.

Majid and Ali laughed when they saw Hamad. He had nothing! 'Hamad will not get the house,' thought Majid and Ali.

The three sons entered the house together and stood in front of their father.

The merchant asked his oldest son to go first.

Majid emptied the sacks of straw around the room. When he finished, the room was half full.
'Well done!' said their father. 'Now it is Ali's turn.'
Ali emptied the sacks of feathers around the room. When he finished, the room was half full.
'Well done!' said their father. 'Now it is Hamad's turn.'
Hamad stood in the middle of the room. He had no sacks. Then he took a long, white stick out of his jacket. It was a candle. Hamad placed the candle in the middle of the room and lit it. The light from the candle filled the dark room with light.
'What a clever idea!' said Majid and Ali laughing. 'Our little brother is the cleverest son!'
'Yes,' said the merchant. 'I think we all agree that the house will go to Hamad!' Then the three brothers joined their father and mother for a delicious evening meal.

Fahad Well, I was in at six. I was watching television.
Khaled That's about when I phoned. Why didn't you answer?
Fahad Maybe I didn't hear, Khaled. I was watching the news. It was very interesting last night.

Story time A powerful lesson for everyone

A Listen, read and find out.

Every year, *Al Sabah* newspaper makes a special offer to two young students from local schools. In the summer holidays, these students can work as reporters on the paper. They can see what reporters really do in their jobs, and they can learn to write reports.

Last summer, Salam Ahmed was the lucky boy. He was 15 years old, and he wanted to be a reporter. On his first day at the paper, he took a new reporter's notebook and his camera. One of the reporters was showing Salam his desk when the editor came in and said, 'A big new restaurant is opening in Baghdad next Tuesday. I need someone to write a good report on the event.'

'I can do it,' Salam said.

On Tuesday, Salam took his notebook and camera and went into the new restaurant. Salam watched everything, but one special thing attracted his attention. A young boy was taking his old father, who was in a wheelchair, to the restaurant for a treat. The boy bought his father some food. The father was very old and weak and dropped food on his shirt and trousers while he ate. Many of the other customers watched the old man in disgust, but his son looked at him with love and respect.

After the old man had finished eating, his son, who was not at all embarrassed, quietly took him to the washroom and patiently wiped the food from his clothes, combed his hair and straightened his spectacles. When they came out, the entire restaurant was watching them in dead silence, not able to grasp how someone could embarrass themselves publicly like that.

The son, very proud and pleased, started walking out through the crowd with his father. As they left, a wise old man called out to the son and asked him, 'Don't you think you have left something behind?'

The son replied, 'No sir, I haven't.'

The old man said, 'Yes, you have! You left a lesson for every son and hope for every father.'

The restaurant went silent. Salam was watching everything and followed the boy and his father. After asking them questions and taking notes, he thanked the boy and kissed the old man on his head. Salam made his very first report about this touching story, and it was praised by everyone.

Lesson 2 Careers advice

A Listen to Layla and Dania's conversations with the Headteacher. What are the main differences between Layla and Dania?

1

Headteacher Good morning, Layla. Please sit down. How can I help you?
Layla I don't know.
Headteacher Well, do you have any career plans?
Layla Career plans? No, I haven't got any plans.
Headteacher None at all?
Layla No ... Actually, I do have a plan. I'm going to leave school as soon as I'm 16.
Headteacher I see. And what are you going to do when you leave school?
Layla Oh, I don't know. Get a job, I suppose.
Headteacher What kind of job do you think you will get?
Layla I've no idea! I'll do anything, but I'm never going to do another exam.
Headteacher What are your interests, Layla? Clothes? Music? Computers? Travel?
Layla No! Definitely not!
Headteacher What are you good at?
Layla I'm quite good at drawing I suppose.
Headteacher Perhaps you could apply to Art school and study drawing and painting further. You

might even find a job using the skills you learn there.

Layla Oh, well, yes. That's a great idea. Do you think I could?

2

Headteacher Hello, Dania.
Dania Good morning, Headteacher.
Headteacher Well now, Dania, do you have any career plans?
Dania Oh, yes, Headteacher. I'm going to be a vet.
Headteacher A vet? That's a tough course, and it takes a long time at university.
Dania Yes, I know. I've found out all about it and I'm going to do it.
Headteacher Excellent! Now, do you know which school subjects you will have to study?
Dania Yes, I do. And I know that I'm going to have to work hard and get good exam results.
Headteacher That's right. And will you be able to do that, Dania?
Dania I hope so. I've worked really hard this term.
Headteacher That's good, because you'll have to carry on working hard for the next three years and then at university.
Dania I know. But it'll be worth it because vets earn a lot of money.
Headteacher That's true. But money isn't everything. It's important to like your job.
Dania That's not a problem for me. I love being with animals.

Faisal I think you should stay here forever! But what are your plans for the future?
Bob Well, um ... I'm not sure. I'd like to stay here in Iraq, but I think I'm going to go back to university and study for a higher degree.
Faisal Do you have to do that?
Bob No, but I want to. It will improve my career. Then I'll go to another country to work.
Faisal Thank you very much for helping me with my project.
Bob Not at all. Good luck with it.

Story time Hard work pays

35

Listen, read and find out.

Once, there was a girl called Dalia, who came from a simple family. Her parents had died, so she lived with her old grandparents. Dalia was an only child, and she knew that when she finished school, she would have to get a good job so she could help her family. Dalia enjoyed school and she worked hard in her classes. In particular, she liked studying Maths. Dalia had two classmates, who were called Huda and Mariam. They both came from rich families, and they did not enjoy going to school. In fact, they were never happy about anything. They complained about getting up early in the morning, they hated wearing a school uniform and they moaned about going to school. All they wanted to do was to play games and chat on their phones.

One day, Huda asked Dalia, 'Why do you study so hard? You are not enjoying life!' Dalia replied, 'I enjoy learning new things. Many children in the world can't go to school. We are very lucky to have our education.' But Huda and Mariam just laughed at Dalia's response.

Months passed. Soon, it was time for Dalia to take her final exams, which she passed. Now, it was time to leave school and start to work so she could help her grandparents, who were too old to work. Dalia soon got a job working for a farmer.

Dalia worked hard on the farm. She became acquainted with the latest reports on farm management, which helped her make decisions about buying new, disease-resistant seeds, modernizing the farm's systems and marketing the farm's products to customers at the local market.

Dalia enjoyed seeing the farm thrive under her care, and two years later, the farm was turning a profit. The farmer was happy with the changes to the farm, and he started paying Dalia a good salary. Dalia used her money to support and care for her grandparents, but she also had an idea for her own business, which would give management advice to other farms. She began to save her money and make a plan for her future.

A few years later, Huda and Mariam, who were still bored and lazy, decided to visit Dalia's business. They were very surprised to see that Dalia was now a powerful businesswoman who was running a successful company. 'How did you do this?' asked Huda, as she gazed around the company office. 'Well,' replied Dalia. 'Nothing ever comes to you, that is worth having, except as a result of hard work. You should try it one day.'

Lesson 7 The Asian Games

38

3 Listen and read the text and check your ideas. Write the answers.

The Asian games
The Asian Games are held every four years. Young people from all over Asia compete in more than 30 kinds of sport. It is an exciting festival. Strength and skill are tested and friendships are built between people from different countries. The Games are also an opportunity for cultural exchange because the programme includes musical performances and exhibitions of architecture and the arts.

History of the Games
The Asian Games were started after the end of the Second World War. The idea was to build international friendship through sport. This idea came from India, so the first Games were held in the Indian capital, New Delhi, in 1951. In that year, 489 athletes from 11 countries took part in the Games. Since then, the number has grown, and now more than 40 countries compete in the Games.

The OCA
The Asian Games are organized by the OCA. These letters stand for the Olympic Council of Asia. Forty-five countries and regions are members of the OCA, and most of them have won medals at the Games.

Where they've been held
Most recently, the Games have been held in Doha, Qatar (2006), Guangzhou, China (2010), Incheon, South Korea (2014) and Jakarta and Palembang, Indonesia (2018).

Iraq's record in the Games
An Iraqi team has attended the Asian Games eight times since 1974. Up to 2018, Iraq has won seven gold medals, 17 silver medals and 23 bronze medals, which is unusually good for a country in a difficult situation. An extraordinary Iraqi competitor was Ali Adnan Amir, who at just 10 years old competed in a men's 200m individual medley heat at the Asian Games in Doha, Qatar on 6th December 2006. More recently, in 2018, Iraq has shone in weightlifting, with Safaa Rashed wining gold in the Men's 85 kg event and Salwan Jassim taking silver in the Men's 105 kg event.

Story time Together for a better school

39

Listen, read and find out.

During the summer vacation, Ammar was passing his school. He looked through the gate, and he was shocked by what he saw. The school grounds were a mess! The grass in the garden had grown really tall, the thorn trees had grown too big and there were weeds, rocks and rubbish everywhere.

Ammar decided that something needed to be done about the mess. The next morning, he took a large bag to the school grounds. All morning, he moved rocks and filled the bag with rubbish. When it was time to go home, he looked around. The grounds were still a mess.

'This job is too big for one person,' sighed Ammar. 'I need some help.' He made a phone call to his friend.

The next day, Ammar met Fahad in the school grounds. Fahad felt sad when he saw the untidy grounds. Together, they moved rocks and filled a bag with rubbish. When it was time to go home, they looked around. The grounds were still a big mess.

'This job is too big for two people,' sighed Fahad. 'We need more help.'

Both boys got on their phones and made some calls.

The next day, Ammar and Fahad met three of their classmates in the school grounds. Everyone felt sad when they saw the untidy state of the grounds.

'The grounds are a mess,' explained Ammar. 'We need to clean up before the start of next term. But it is a big job and we need help.'

'My older brother has a lawn mower,' said Fahad. 'He could cut the grass.'

'My brother works for a gardener,' said Ayaa. 'He can get us some new plants.'

'My cousin works on a farm,' said Tahar. 'He can lend us some tools.'

'And my aunt knows a lot about flowers. She can tell us which weeds are poisonous and how to make beautiful flower beds,' said Raia.

Everyone got on their phones and made some calls.

Ammar and his classmates arrived at the school grounds at 7 o'clock the next morning. They all had a rubbish bag and gloves. But nobody else arrived. Everyone felt sad. Would anyone come to help them?

A few minutes later, a truck appeared. Fahad's brother got out and waved. He opened the back of the truck and carried a large lawn mower into the grounds. Next, Ayaa's brother arrived with bags of seedlings. Tahar's cousin arrived with some gloves and tools, and then Raia's aunt came and started explaining which flowers they could keep and which they should remove. Other students from the school arrived, curious about what was happening. They joined in with the tidying, and soon the grounds were busy with activity.

At 5 o'clock, everyone sat down exhausted. Ammar looked around. The grounds were beautiful! The grass was short, the trees were tidy and there were neat flower beds. A vegetable garden had been created for pumpkins and carrots, as well as a small pond made from rocks. Everyone went home feeling happy.

When the term started, the teachers and parents were delighted with the state of the school grounds. They were so impressed with the children's hard work and dedication to the environment that they gave them certificates and made them Environment Ambassadors for the school.

Manager Yes. Come in and sit down.
John Green Thank you.
Manager When did I last ask you to come and see me?
John Green Oh, ages ago.
Manager No, not ages ago. I talked to you seven days ago and seven days before that. Do you remember what I said to you?
John Green Ah, well, you asked me to do one or two things, I think.
Manager I didn't ask you to do anything. Two weeks ago, I told you that your work was not good enough. I agreed to give you a chance to improve. One week ago, I told you that your work was no better. I said that if it didn't improve over the next week, you would lose your job. Do you think your work has improved?

1 **Listen to Tariq Radhi give a talk to some students about his job.**

Teacher Today, students, we have a very exciting visitor to talk to us about his job as a wildlife photographer. Please welcome Tariq Radhi.
Tariq Rahdi Good afternoon, everyone. My name is Tariq and as your teacher has already mentioned, I am a wildlife photographer. I love my job, but I didn't always plan on becoming a photographer. I actually went to university to study to become a doctor,

but during the holiday, I had an amazing experience which changed my career path. I visited the marshlands in south-eastern Iraq with my family and spent two weeks taking many photographs of the beautiful sacred ibis. We had to travel by boat to see the ibis up close. When I got home, I entered a photography competition with some of my ibis pictures and won first prize. Since then, I have been all over the world taking some amazing photographs of hundreds of beautiful animals and landscapes.

My latest project was in Alaska in the United States. I travelled with a Canadian team to the Arctic Circle to photograph polar bears in their natural habitat on the Arctic sea ice. It was fantastic! We travelled over the snow on sledges and saw a mother bear and her cub. I got some great photos.
